

**National - Weather Service (NOAA/Federal Agencies):**

The National Agreement for meteorological services between the National Weather Service (NOAA) and Federal Land Management Agencies identifies services to be provided, establishes interagency relationships, and defines financial and other obligations of the NWS and User Agencies. The fire-weather forecast offices that serve the Northwest Area prepare Annual Operating Plans in conjunction with the areas they serve. An excellent contact person is the Fire Weather Program Manager located at the Northwest Interagency Coordination Center, Portland, OR, Ph: 503-808-2737. The website to obtain information pertaining to the Agreement as well as other weather related information: <http://www.seawfo.noaa.gov/fire/olm/national.htm>
